

GET THE LOOK

Koehler & Dramm
wholesale florist

Botanical designs featuring tropical flowers seem to be showing up everywhere these days. And why not? Pairing the often bold textures of tropicals with garden-infused, free flowing plant material offers a visual treat that is unmatched. You can get this look by choosing just a few focal flowers to add to a lush mixture of textural filler flowers shaped with the help of foliage and/or branches.

- Jessica Leopold CFD, Design Department Manager -

Larger tropical blooms make great focal points!

Anthurium
King or Queen Protea

Create your frame with robust textures!
